**W**elcome to the wonderful world of Limpies where people are just people, comfort is a reality and "uptight" is how one laces their shoes.

\$24.95

**Pants**

The foundation for maximum comfort! BIG side pockets that can hold two skabobs each. Rear patch pocket. No side seams to mess up the Picasso-ish styling. # THE VIEW FROM A SMALL ROOM

Who's behind Small Room Skateboards? Our roving reporter tracked down Louis Carlton between apartments one morning.

**LOUIS:** On Small Room Philosophy

"We're just a bunch of friends. We all skateboard and we're all trying to make good stuff. We all believe in that, and we're all trying to do the best we can. We don't run a big corporate business at all."

**LOUIS:** On Pro Riders

"From necessity—being a small company and starting basically from the ground up with no money—we couldn't afford to have pros and send them around everywhere, and make models, and do all these fancy graphics. So we just started with the concept that if we liked it—since we all skate—chances are it'll catch on and other people will dig it, too. That's how it worked out. Now our whole thing is to be just a skateboard company. I don't think that every company should center around three people which are their "pro team". Our emphasis is on the company and our whole team of about 15 guys around the country. It's real simple. We're just a skateboard-oriented company."

**LOUIS:** On Skateboarding And Age

"It's something I'll be doing 'til the cows come home!"

## ALL T'S \$11.95 Real Quality

In addition to all the T's pictured, we've got a lot more we don't dare show. World Industries, H-Street, Foundation, Blind, Planet Earth, Black Label and Real are all examples of companies whose t-shirts are so new, or change so fast, or are of such limited supply that we'd find ourselves in major trouble if we tried to show specific examples. So if you want to know what's the latest, just call us up and ask what we've got in your size.

Louis

**LOUIS:** On Making Stuff

"We're going to keep modifying our boards. Just the usual stuff, new graphics and new shapes and hopefully some new concaves. The main emphasis is on our boards. That's what we're all about... having better boards. I think we have really good boards now, but I'm never happy. I can always see ways that I think they could be better. We're striving to have the ultimate skateboard... if there is such a thing. Even if there is, in a few months, there'll be something totally different and new that'll be even better."

"That's basically our thing as product goes. Who knows as far as making rails and wheels and trucks and underwear. You know, it's just a hassle, and I don't know if people want that right now. We're just going to stick with what we know how to do."

# WAREHOUSE PROFILE

## FRANK HIRATA

Is 17, skates for Powell, and had a few things to tell us one day.

## ORIGINS

My dad used to skate. I was just kind of there. Logan Earth Skls and stuff. He used to take me when I was real young. So, I was always into it. Then around 5th or 6th grade, I started to get real serious about skating.

## MOTIVATION

I don't have to tell myself to skate. I just do it because it's fun. I always do it because of that. I like being in contests, so I take it upon myself to compete a lot.

## SPONSORSHIP

Well, I'm going to be in the new video. And they're setting me up with whatever I need. Right now I'm riding a Steve Salz and freestyle wheels. And I ride for Thunder, also.

## PREFERENCES

Mostly flat ground. I'm doing more technical types of stuff than I used to. We used to just do big things like stairs and handrails. Now I'm doing stuff that's more difficult and takes longer to learn. But whenever there's vert, and I can go there, I'll skate it.

## FRIENDS

I've been skating with Frankie Hill a lot. He's crazy...he's really crazy. He does the Evel Knievel stuff. He does tricks that shouldn't be done. It's the fear thing, but he just bypasses that and does it. I also like skating with Chris Watkins a lot. He's really rad.

## FUTURE

I want to eventually turn pro and have my own model. Whenever that will be. I think there's only about three street-skating-ams on Powell right now. Right after "Public Domain" Salz and Hill and Ray Barbee turned pro.

## ADVICE

I see kids and all they want to do is get sponsored. That seems like the wrong way to go at it. They should just skate hard. That's the way you get better...and just enjoy it.

P.S. Oh, and can I say "Hi" to Todd?
